SCOPE OF THE STUDY

What precipitated this Study?

At the January 25, 2022 City Council meeting, Councilmember Din proposed a Study Issue to evaluate current City policy for naming City parks with the intention of incorporating a more diverse cultural history in park names including South Asian culture and evaluating the policy for renaming existing parks. This study would review Council Policy 7.3.23, Naming / Renaming Parks & Recreation Facilities.

At the February 17, 2022 Workshop, Council supported modifying the scope of this study issue to remove the specific reference to South-Asian culture and identification of historic figures or events that could be candidates for naming or renaming a park.

What are the key elements of the Study?

The following items will be incorporated into the scope of the Study:

- Review and identify potential changes to the current City process for naming City parks to incorporate more diverse cultural history.
- Review the current policy and specifically identify a process to potentially change the name of a current City park.

Estimated years to complete Study: 1 year
