SCOPE OF THE STUDY

What precipitated this Study?

The City Council sponsored this study issue at the January 23, 2024 annual public hearing for Study Issues and Budget Proposals. The Council noted that the Sign Code has not been evaluated for several years, may be overly prescriptive, and may not meet the needs of businesses. The proposal also includes evaluating the use of digital signage and ensuring that the Sign Code is consistent with current U.S. Supreme Court case law including *Reed v. Town of Gilbert*, 576 U.S. 155 (2015) which was decided after the City's sign code was last updated in 2013 and 2014.

What are the key elements of the Study?

This Study Issue would examine the City's current Sign Code (Sunnyvale Municipal Code Chapter 19.44), as it relates to the recent Supreme Court case noted above, as well as re-evaluating nonresidential signage standards for business-friendly qualities. The study would look at the current regulations for signs and evaluate if they are based on content and if there are potential constitutional issues. The Sign Code was comprehensively updated in 2013. The 2013 update (RTC 13-149) was a Study Issue requested by Council to assist smaller businesses in shopping centers to have effective identity from the street, and to better organize and simplify the existing sign code. To address these concerns, as well as other issues that had arisen in the past regarding the City's sign standards, staff undertook a comprehensive revision of the sign code. From the 2013 Report to Council: "The revised sign code balances two key goals: maintaining Sunnyvale's attractive community character by avoiding excessive commercial signage; and, adjusting and simplifying certain sign standards to allow more opportunities for businesses to effectively identify themselves." The City Attorney retained outside counsel to assist in evaluating content provisions and First Amendment rights.

The 2014 update (RTC 14-0709) was staff-initiated to clarify and amend portions of the 2013 sign code that were problematic and to add a section for signs on public property.

The work program for this new Study Issue would include:

- Evaluation of the current Sign Code as it relates to content restrictions;
- Identify other areas of concern, if they exist;
- Propose alternatives to address any potential issues;
- Community outreach; and
- Public hearings
